SHINER, TEX. WED., AUG. 24, 1898

The American loss was only six
killed and forty wounded in the
capture of Manila.

The bombardment and capture
of Manila was effected on Sunday,
United States time.

600 head of cattle and 1800 goats
were loaded at Galveston last
Thursday for Cuba.

WM. CAMERON & CO. have ship-
ped 1000 barrels of flour from Fort
Worth to Havana, Cuba.

The heat is so great in Europe
that eight deaths from sunstroke
occurred in Paris last Wednesday.

The Spaniards at Manila sur-
rendered 7000 men, 12,000 guns
and a large quantity of ammuni-
tion.

The final decision of the Texas
Railroad Commission is that the
express companies must pay the
war tax.

ADMIRAL DEWEY is the Alpha
and Omega of the war with Spain.
He won the first and the last
victories.

Riche's Texas immunes left New
Orleans last Thursday for Galves-
ton, under order from the war
department.

At a meeting of the foreign
consuls before Manila was cap-
tured, all advised surrender except
the German.

The officials of Havana say it is
not yet safe to admit Americans to
the city. They fear trouble with
the volunteers.

The Fourth regiment at Camp
Tom Ball, Houston, were paid off
last Thursday. It took thirty
thousand dollars to go round
among the boys.

ABOUT ten feet of the Maine's
wreck is still visible in Havana
harbor. The Spaniards never men-
tion the Maine now, and shudder
even to look at her.

JOHN HAY has been tendered the
position of secretary of state and
has accepted. Uncle Sam will now
have to find a new ambassador at
the court of St. James.

SPAIN does not seem to be in any
hurry to name her commissioners
to settle the Philippine question.
She has nothing to lose and every-
thing to gain by delay.

SENOR SAGASTA says the war is
not ended, and that hostilities are
only suspended. He claims that
the surrender of Manila cuts no
figure in the peace negotiations.

It is stated that after the sur-
render of Manila, Aguinaldo's fol-
lowers turned upon the Americans
and attacked them, but they were
easily defeated after a brief conflict.

SOME of the captured guns at
Santiago are dated 1737. It is this
sticking to old things and habits
that has brought Spain to the dust
in presence of unerring creative
destiny.—Galveston News.

E. H. R. GREEN, son of Hetty,
has been re-elected chairman of the
Texas republicans. The conven-
tion at Fort Worth declined to put
out a state ticket. The fine Italian
hand of Barney Gibbs can be seen
in this.

When Generals Lee and Wheeler
met in Washington the other day
they shook hands and hugged
each other. The navy is still in
the lead, for Commodore Schley
has been hugged by Admiral
Cervera.

A TELEGRAM from General Co-
bin at Washington, says that Col.
Riche's Texas immune regiment
was ordered back to Galveston on
account of lack of discipline and
insubordination. The future of the
regiment is not known, but it will
probably be disbanded.

The president has sent instruc-
tions to General Merritt that the
authority of the United States
must be respected in the Philip-
pines, by the insurgents and every
one else. Trouble is feared with
Aguinaldo's forces, as they out-
number the Americans.

WALTER C. JONES of Virginia
Point has sold to J. F. Clinch
2390 acres of land for \$131,454.95.
This land comprises nearly all of
the land at Virginia Point, and is
supposed to have been bought for
C. P. Huntington for the use of the
Southern Pacific railroad.

It is reported from London that
pressing instructions were sent by
the Madrid government to General
Augusti at Manila to hold out as
long as possible, and not surrender
the city until after the signing of
the peace protocol. But Dewey
would not wait, and captured the
city regardless of any protocol.

SCHOOL NOTICE.

Notice is hereby given that the
school at Shiner will open on the
2nd Monday in September. In
connection herewith a few remarks
may be permitted:

When the fathers in their wis-
dom provided for a system of
public free schools, for which a
domain, in size of a kingdom, was
set aside, it was their object not
only to cause such knowledge to
be infused as may be useful to the
child in the struggle for future life,
but also to raise a citizen intelli-
gent and capable of self govern-
ment, the basis upon which our
free institutions rest. But while
this system of free schools has been
established to assist in, upon
parents and guardians the duty
remains to complete the education
of their children in the sense and
spirit of the object and purpose of
the institution, a duty which they
owe to themselves, their children
and their country. No school can
prosper or be maintained for the
free school term only, for no
teacher of ordinary ability will
consent to be employed for 4 or 5
months, upon a salary not exceed-
ing the wages of a dry goods clerk,
but a term of nine months is re-
quired to retain a full faculty and
successfully conduct the schools.

While this board has spared no
pains to secure competent teachers,
while they will see that order, dis-
cipline and good conduct be main-
tained, the co-operation of the
patrons is required to raise this
school to what it should be, equal
to any in the state, and to become
the pride of every citizen of the
community. THE TRUSTEES.

Life is full of trouble to the man
that's full of booze, but he doesn't
usually realize it.

To Advertisers.

It costs the Royal Baking Pow-
der company something like \$500,-
000 annually for advertising. Some-
one once suggested to the company
that it discontinue advertising one
year, the baking powder was so
well known and advertised, and
place that amount, \$500,000, in the
profits. The answer was that it
would undoubtedly cost the com-
pany three times that amount to
get the product in its original
channels again. This is a pretty
good pointer to those business-
men who imagine they are making
a great saving when they discon-
tinue a \$4 or a \$6 a-month adver-
tisement a few months in the dull
season. It never pays to tear out
a dam because the water is low.
